RIGGING

RIGGING NEWSLETTER MARCH 2008

## New kit for 2008

Outback has again vastly increased hire stock. We have added yet more CM Prostars to meet ever increasing demand. On top of that we have also added to our stock of 1t lodestar, LV controllers and professional truss systems and now also hold a vast quantity of Total Fabrications Medium Duty truss.

**Kinesys** is a ground-breaking and innovative technology specialising in the design, build and installation of motion control systems for the entertainment industry. In-house facilities include hardware and software design, product design and system integration.

## Motion control

2008 also sees Outback investing in a new range of motion control. The state of the art **Kinesys Elevation + system** to add to our current **IBEX** programmable hoist controller plus.

Once installed the ability to ramp start, ramp stop, position and vary the speed of a chain hoist will allow encoded motors to take on applications which previously would have required the purchase or rental of winches.

**The London International Horse Show 2007.** One of our first shows to use Kinesys Elevation +.

Liftket double brake hoists in addition to the 2000 kg Lodestar hoists we stock. This offers **PA and Staging companies** the time saving benefits of using double brake systems on site.

## New hoists...

Outback now also stock Liftket 500kg 20m/min and Liftket 1000 kg 10m/min encoded

double brake hoists to run with the Elevation system.  
**2 Tonne hoists**

Outback have also purchased a number of 2000kg

**Truss world.** Adding to our already extensive truss range. Total Fabs MD. New for 2008!

**LV6,** low voltage chain hoist controller

## LEEAA Membership

As part of Outback's ongoing commitment to improving both standards of service and safety we are delighted to announce that we have qualified for full membership of The Lifting Equipment Engineers Association [LEEAA](http://www.leea.co.uk)
